

Allegheny County Office of the Medical Examiner

A fully integrated crime lab makes us one of the most dynamic Medical Examiner's offices in the country. We're all about teaching, teamwork, and community outreach!

Our balanced caseload spans the full breadth and depth of Forensic Pathology and Forensic Science - we have it all!

Fun Fact

In 1929, the 6000 ton Allegheny County morgue was lifted off of its foundation, moved 300 feet, and rotated by 90 degrees to make room for another county building!
