

Salary Range – \$218K – \$281K! No City of Philadelphia residency requirement!
Apply [here](http://www.phila.gov/jobs) at www.phila.gov/jobs

The Medical Examiner’s Office of the Department of Public Health is hiring board-certified doctors in forensic pathology to join our committed team. If you are ready to take your forensic pathology career to the next level with unique experience in a large county jurisdiction and a total rewards career with lots of great benefits, apply by July 19, 2024.

Please attach a copy of your board certification so we can complete the review of your application.

We offer competitive salary, federal student loan forgiveness, and generous health and pension benefits. Part-time positions are available!

For questions, contact Janine LaBletta, Deputy Director of Hiring Services at janine.labletta@phila.gov or 215-686-2350.

ABOUT THE POSITION

This is specialized medical work in the determination of the cause and manner of deaths coming under the jurisdiction of the Medical Examiner. Work includes determining the existence of criminal acts or negligence on the part of the person or persons responsible, and also involves assuming responsibility for activities of the medical examiner’s office in the evening and on assigned weekend shifts. This role is distinguished from lower-level pathologists by the employee’s demonstrated mastery of forensic pathology. Contact with families and a variety of governmental agencies, hospitals, physicians, and others in the conduct of individual cases is a significant aspect of the work.

ABOUT THE CITY OF PHILADELPHIA

ABOUT THE PHILADELPHIA DEPARTMENT OF PUBLIC HEALTH

The mission of the Department of Public Health is to protect and promote the health of all Philadelphians and to provide a safety net for people who are disproportionately impacted by societal factors that limit their access to healthcare and other resources necessary for optimal health.

Our department:

- Provides high-quality medical care at City health centers.
- Prevents the spread of illness and infectious disease.
- Protects against environmental hazards.
- Encourages healthy behaviors to prevent chronic disease.
- Plans and responds to health emergencies.
- Ensures the quality and accessibility of health services.
- Sets health policy.
- Collects, analyzes, and reports on a variety of public health data.
