

DEPUTY MEDICAL EXAMINER I/II

The County of San Diego Medical Examiner's Department is currently recruiting for the Deputy Medical Examiner I and II. **Deputy Medical Examiners** determine cause of death for the deceased in custody of the Medical Examiner.

Deputy Medical Examiner I is the entry level class to this series. Incumbents visit scenes of death; conduct post-mortem examinations to determine the probable cause of death; testify and provide medical evidence at grand jury and court trials; perform microscopic tissue examinations; prepare reports of findings; and perform related work.

Deputy Medical Examiner II is the journey level class for the Deputy Medical Examiner series. Incumbents in this class possess Board Certification in Forensic Pathology and are specialized physicians responsible for conducting post-mortem examinations to determine probable cause of death. They confer with the Chief Medical Examiner, Chief Deputy Medical Examiner, and law enforcement agencies to assist them in interpreting autopsy findings for the purpose of reconstructing events leading to a suspected or actual homicide or suicide.
