

FORENSIC PATHOLOGIST HILL COUNTRY FORENSICS

OWNED AND OPERATED BY DR. SATISH CHUNDRU, FORENSIC PATHOLOGIST

★ GEORGETOWN – WILLIAMSON COUNTY, TEXAS

FLEXIBLE WORK SCHEDULES WITH OPPORTUNITY TO DO LOCUMS

Compensation & Benefits

\$275,000 - \$300,000.00 annually

- + Benefits package includes premium health insurance.
- + Up to \$5,000 relocation reimbursement after 120 days of work.
- + Attendance for one conference paid for by HCF (annually).
- + Paid Texas medical license renewal.
- + Paid NAME membership.

Work-Life Balance

- + No weekend autopsies (rare exceptions).
- + Flexible schedules with opportunities to do Locums.
- + Partial work from home opportunities.
- + Approximately 30 miles north of Austin, the live music capital of the world.
- + Easy access to the airport with many direct flights.
- + From the bustling city to the quiet suburbs and the peaceful countryside, Austin offers the perfect environment for every preference.

Hill Country Forensics

- + Conveniently located 10 minutes from downtown Georgetown with easy access to several highways (35, 45, & 130) for ease of commute.
- + Annual caseload estimated at 950+/- autopsies.
- + Annual individual caseload estimated at 300 autopsies. **Bonuses for each case over 300.**
- + The majority of cases are natural/accidents. On average, we receive 10 homicides a year.
- + Full autopsies are performed on every case.

In September 2025, we relocated to a brand-new, custom-built facility.

At 10,268 square feet, the space was thoughtfully designed to enhance efficiency and create a modern, comfortable work environment. With improved layout and additional workstations, the facility provides room to grow and ensures our team has the tools and space needed to thrive.

FORENSIC PATHOLOGIST HILL COUNTRY FORENSICS

★ GEORGETOWN – WILLIAMSON COUNTY, TEXAS

Role & Duties

The pathologist in this role will answer directly to Dr. Satish Chundru and will be responsible for performing autopsies at the behest of the Justices of the Peace for Williamson County and several other Central Texas counties.

Full autopsies are expected to be performed on every case, and histology & toxicology are ordered as necessary.

The ideal candidate for this role will be a great communicator with a passion for their work. **We pride ourselves on our response time and turnaround time, and you should too.**

Qualifications & Licensing

- + Board Certified in Anatomic Pathology.
- + Certified in Forensic Pathology within 2 years of start date.
- + Must have an active Texas Medical License before start of work.
- + A minimum of 1 year of experience working as a board-certified forensic pathologist is preferred.

Hill Country Forensics has a regional reputation for excellence in professional and compassionate postmortem examinations. This is accomplished through providing timely, accurate, and thorough services.

Our office has a culture of teamwork, continuous improvement, and welcomed input from every team member. We strive to provide a safe and welcoming work environment for all members of staff by listening to ideas and suggestions and implementing updated procedures as necessary.

Austin At a Glance

In all of its eclectic glory, Austin boasts activities and events for all areas of interest. From music events, outdoor sports and breweries to luxury spas and fine dining, Austin truly has something to offer for everyone.

Education in the Austin area is amongst the highest in the nation. Ranked at number 8 of the nation's 10 most educated cities, you can be sure that Austin is a great place to raise a well-rounded family.
