Forensic Pathologist – Hidalgo County, Texas

A private forensic pathology practice with a contract to serve Hidalgo County in south Texas is seeking a qualified forensic pathologist. The ideal candidate could spend six (6) consecutive workdays per month in the morgue and be on call only for one weekend (Ex: M - F, on call the weekend and morgue duty on Monday). Alternate schedules can be arranged as long as six morgue days are covered in one month. The office is closed weekends except for rare circumstances. The forensic pathologist will be provided with a two bedroom apartment and Lexus NX300 for use during their time in the morgue. The salary is $275,000 annually and benefits include paid health insurance, AD&D, vision, dental, medical professional liability insurance, vacation and sick leave. Medical license cost, one meeting per year up to $3,000 and NAME or AAFS dues are also covered. Applicants must be board certified by the American Board of Pathology in Anatomic Pathology or Combined Anatomic and Clinical Pathology, board certified or eligible in Forensic Pathology and possess a Texas medical license. The office performs approximately 450 autopsies per year and is located in Edinburg, Texas near South Padre Island and the border with Mexico. The forensic center is a 15,000 square foot stand-alone facility with a new LODOX. The office is staffed with one forensic pathologist, one medicolegal death investigator, three autopsy technicians and administrative support staff. Interested candidates may forward a CV by e-mail. Please contact Phillip Farley with any questions pertaining to this position.
