Recruiting for Pathology Faculty

- Energetic, vibrant, and professional team of pathologists
- Autopsy and Forensic Pathology practice
 - Complementary Neuropathology, Pediatric Pathology possible; NO Surgical path or AP/CP Hospital
- State of the art autopsy facility, LODOX® imaging
- NAME Accreditation; FP Fellowship with MPH approved, funded
- New medical school facility
- State institution, government (for student loan options)

PHYSICIANS ASPIRING TO DO MORE THAN “JUST AUTOPSY”

- TEACH: Medical, graduate, MPH, possible undergrad; Shape and develop curriculum; Educational resources available
- RESEARCH: Numerous opportunities, collaborations. Areas include disease and environment, heavy metals, diversity / health equity, bioinformatics, epidemiology
- PUBLIC HEALTH: MPH program within school; collaborations with health departments, national initiatives
- DEATH INVESTIGATION: Primary responsibility and control for 10 rural counties.
- TOTAL INDEPENDENCE from law enforcement and judiciary but with excellent and supportive relationships benefiting FP

North Dakota – Shine like the Aurora

By the Numbers.....

- **Cases:** 420 -500 autopsies; Populations ~ 500,000; All hospital /private autopsies in region
- **Pathologists:** current 5; target 8; No pathology residents; 1 forensic fellow; 1 forensic MPH fellow Well staffed investigators and techs
- Tremendous case variety –urban, work, farm and recreational accidents; wide variety of natural disease -Low crime, low homicide rate, low court appearances (and they treat you professionally, with gratitude)
- Large SIMS center; ability to structure simulated educational models, vignettes, lessons
- On site histology; bioinformatics, research consultation/collaboration within department; ready consultation at UND

MD or DO from Accredited School; Licensed as physician in ND, MN, SD. Completion Pathology residency; ABPath or equivalent, recognized by ND medical board. FP boards or Fellowship completion, pass boards in 3 years. Ability for driving license in ND or MN; passport to allow routine travel between US and Canada

Great salary (start \$240,000 + benefits (AP boards, fellow trained, no experience); increases with academic rank and COL
Benefits: Full, premium family health insurance; TIAA retirement 11 –18%, high employer contribution; COL increases, historically ~3% annual; generous professional allowance for meetings, license, CME; free tuition for you; 50% tuition for family; cultural and sports activities in University, student, and faculty clubs

Fabulous group to work with; Low-crime, safe, “college town”; Low cost of living, wide variety of housing. Miles of trails and parks within city; short commutes (10 minutes) in town; in countryside ~ 20 minutes.
