

**Job Description:**

Pathology Consultants, Inc. (PCI) is seeking a forensic pathologist for a part-time position. The primary practice location will be in northwest Indiana.

We are a private practice group of 24 serving the Chicago area and northwest Indiana. Our pathologists are committed to patient care, service excellence and professional growth. Many of our pathologists have additional expertise in a broad array of subspecialties, including hematopathology, dermatopathology, cytopathology, and breast pathology. Through our diverse hospital associations and partnership with a regional laboratory -- Alverno Laboratories in Hammond, Indiana -- we have direct access to on-site innovative technologies including flow cytometry, molecular diagnostics, next generation sequencing, FISH analysis, Virtuoso image analysis, digital pathology and immunohistochemistry.

We offer a competitive salary and provide our employees with health insurance benefits, 401(k) contributions, paid malpractice insurance and CME. We are seeking an individual with excellent diagnostic skills and high-level communication abilities to join our close-knit team.

This position is available immediately. Please visit our website to learn more about our practice: <http://pathologyconsultantsinc.com>
