Forensic Pathology in Wisconsin – up to \$250k in Student Loan Repayment

The Dane County Medical Examiner's Office is seeking a board-certified or board-eligible forensic pathologist to join its team of forensic pathologists dedicated to quality patient and family focused care, and best practice in medicolegal death investigation. This is a high-income opportunity with a supportive county administration offering a structured environment with limited daily caseload, equal distribution of cases, advanced radiologic capabilities, skilled autopsy assistants, and dedicated time for follow-up, providing plenty of opportunity for good work-life balance or time for teaching or research opportunities.

Opportunity Highlights

- J1 Visa applicants welcome
- Up to \$250K in student loan repayment
- Fellowship stipend available for early applicants
- Initial base salary of up to \$270,000 with COLA increases throughout career
- Sign-on bonus + relocation assistance provided

Community Highlights

Surrounded by two gorgeous lakes and home to the University of Wisconsin, Madison is a friendly community with plenty of Midwest charm. Offering a small-town feel and big-city amenities, it's an ideal place to call home.

- University town with diverse population and activities
- Some of the best public + private schools in the state
- Exceptional retirement system

- Full medical insurance coverage
- Four distinct seasons + an abundance of outdoor recreation, including biking, golfing, fishing, paddle boarding, snowshoe walking, and hiking
- A variety of events + activities throughout the year, including collegiate sporting events
- A remarkable downtown area, featuring a number of wonderful shops and restaurants
- Convenient access to Lake Michigan + Milwaukee
- Within driving distance to Chicago
- *Medscape* ranks Wisconsin #2 in its *"Best Places to Practice 2021"*

Qualifications

Candidates must be eligible for medical licensure in the State of Wisconsin and must be AP/FP

board-eligible or certified in Anatomic and Forensic Pathology Medical degree required
