

The image shows the exterior of the West Tennessee Regional Forensic Center, a modern brick building with large windows. A white SUV is parked in front of the building, featuring the center's logo and text: 'REGIONAL FORENSIC CENTER', 'SHELBY COUNTY', and 'INVESTIGATOR'. The number '7119' is visible on the side of the vehicle. The building has the address '637' on its facade. The UTHSC logo is in the top right corner.

WEST TENNESSEE REGIONAL
FORENSIC CENTER

ABOUT THE **WEST TENNESSEE REGIONAL FORENSIC CENTER**

The \$13 million West Tennessee Regional Forensic Center (WTRFC) includes 32,000 square feet of operational space, and is located in Memphis, the second largest city in Tennessee, with a population of more than 653,000. The office is centrally located near downtown in the heart of the Medical District.

The WTRFC performs approximately 1,000 autopsies per year for 13 counties west of the Tennessee River. The center encounters a wide variety of cases, including traumatic deaths, toxicological deaths, and natural deaths. Affiliation with the University of Tennessee Health Science Center (UTHSC) Department of Pathology, Le Bonheur Children's Hospital, and Methodist University Hospital allows consultations in many pathology subspecialties, including pediatric pathology, neuropathology, and all of the surgical pathology subspecialties, as well as access to medical microbiology and clinical chemistry.

OTHER HIGHLIGHTS INCLUDE:

- Accredited by the National Association of Medical Examiners since 1978
- On-staff forensic anthropologist certified by the American Board of Forensic Anthropology
- Consulting odontologist certified by the American Board of Forensic Odontology
- Lodox with integrated PACS
- 9 medicolegal death investigators
- 11 experienced autopsy technicians
- 6 forensic pathologists
- Teaching institution with a forensic pathology fellowship program, rotating pathology residents, and a summer preceptorship program for first-year medical students
