Farmington, Connecticut, United States of America
- 4:45 – 5:00 PM **Questions/Comments**

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of MedChi, The Maryland State Medical Society, and the National Association of Medical Examiners. MedChi is accredited by the ACCME to provide continuing medical education for physicians.

MedChi designates this live activity for a maximum of 3.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Administration Fee

There is an administrative charge (\$100) for persons wishing to receive this credit. It will be necessary for you to complete a program evaluation as well as pay the administrative fee to receive CME credit for this meeting.

Registration Fee

There is a registration fee of \$200 for Members; \$300 for Non-Members.

There is no charge for NAME Medical Student Members, NAME Resident Members and NAME Fellow-in-Training Members

March 10, 2022

The Consumer Product Safety Commission (CPSC) needs your help! We seek your assistance in protecting the American consumer against hazardous products.

The CPSC investigates incidents and deaths that involve a consumer product. We have found that medical examiners/coroners provide some of our most valuable information, in part due to the timely reporting. We need your help in identifying hazardous or potentially dangerous consumer products. Your cooperation in reporting all consumer product-related fatalities is crucial to our efforts. These efforts include product recalls, safety standards, bans, and consumer education. As one example of how your information has been used, the Commission was first alerted to the problem of infants drowning in five-gallon buckets by a MECAP report. CPSC is working with the bucket manufacturers on a national public information program and a voluntary standard has been set, providing warning labels on all new buckets sold. Other examples are described in our Quarterly MECAP News-if you're not a subscriber, please contact Yolanda Nash as below.

As participants in the Medical Examiner and Coroner Alert Project (MECAP), some health and medical officials have asked whether the Health Insurance Portability and Accountability Act (HIPAA) medical privacy rules will affect their ability to furnish information to the Commission for MECAP. It will not, because even in the event HIPAA otherwise would apply there is a specific exemption, section 164.512(b), "Standard: uses and disclosures for public health activities," which applies to MECAP. Furthermore, the CPSC maintains the confidentiality of any victims or relatives identified in a reported incident. Alternatively, in reporting, you certainly have the prerogative of purging identifying information, such as, name, address, phone, social security numbers, and other such information.

Please feel free to check out our website at: <https://www.cpsc.gov/Research--Statistics/MECAP>

You have many options to submit reports:

Email: MECAPS@cpsc.gov or ynash@cpsc.gov.

Internet: www.saferproducts.gov

Phone: 1-800-638-8095 x7502 or
301-504-7502 - Yolanda Nash

Fax: the MECAPS to 301-504-0038

Mail: the reports to Yolanda Nash-
MECAP Manager at CPSC's Bethesda
address

Again, we thank the many members of the National Association of Medical Examiners for their contributions to MECAPS, and welcome broader participation in this important safety program.

Sincerely,

Alex D. Hoehn-Saric
Chair, CPSC
