- Lead to specialty certification or oversight by an ABMS[®]-recognized certifying board

Benefits of an NRMP Match

Promotes Fairness

- All participants follow the same rules and adhere to the same deadlines.

Eliminates Pressure in the Recruitment Process

- Applicants and programs can consider all options.

Simplifies the Appointment Process

- Mobile-friendly system to search applicants and enter rank order lists. PRISM® app for interviewing.

Produces the Best Fit for All Participants

- Powerful mathematical algorithm is used to place applicants in their most preferred training program that also prefers them.

How the Algorithm Works

The Matching Algorithm

- There is no match to the program if:
 - the applicant did not rank the program, OR
 - the program did not rank the applicant, OR
 - the program and applicant ranked each other but the program filled with other applicants more preferred by the program.
- Matches are final when:
 - the algorithm completes its cycle through all applicant rank order lists and tentative matches are confirmed.
- Couples match when:
 - the algorithm is able to place BOTH partners in their highest ranked pair of programs on the primary list.
